Metathesis:
A LaTeX template to Typeset Your Thesis for Submission to the School of Graduate Studies

(Changed the title by modifying the file `thesis.tex`)

by

© *my-name* (change this in `thesis.tex`)

A thesis submitted to the

School of Graduate Studies

in partial fulfilment of the

requirements for the degree of

Master of *faculty* **or** Doctor of Philosophy (change this in `thesis.tex`)

Department of *dept-name* (change this in `thesis.tex`)

Memorial University of Newfoundland

Month Year (change this in `thesis.tex`, too)

St. John's   Newfoundland

Abstract

This document provides information on how to write your thesis using the LaTeX document preparation system. You can use these files as a template for your own thesis, just replace the content, as necessary. You should put your real abstract here, of course.

"The purpose of the abstract, which should not exceed 150 words for a Masters' thesis or 350 words for a Doctoral thesis, is to provide sufficient information to allow potential readers to decide on relevance of the thesis. Abstracts listed in Dissertation Abstracts International or Masters' Abstracts International should contain appropriate key words and phrases designed to assist electronic searches."

— MUN School of Graduate Studies

Acknowledgements

Put your acknowledgements here...

"Intellectual and practical assistance, advice, encouragement and sources of monetary support should be acknowledged. It is appropriate to acknowledge the prior publication of any material included in the thesis either in this section or in the introductory chapter of the thesis."

— MUN School of Graduate Studies

Bibliography

Appendix A

Appendix title

This is Appendix A.

You can have additional appendices too (*e.g.*, `apdxb.tex`, `apdxc.tex`, *etc.*). If you don't need any appendices, delete the appendix related lines from `thesis.tex` and the file names from `Makefile`.
